## **DETAILED ACTION**

### ***Election/Restrictions***

1. The restriction requirement of the Office Action dated June 17, 2004 is withdrawn, as the application was filed under 35 USC §371 and the proper restriction requirements under PCT Rule 13 were not applied. A new restriction requirement is set forth below.

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10, drawn to a fluidized bed reactor.

Group II, claim(s) 11-15, drawn to a method of polymerizing.

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The claims of Group I lack the special technical feature of the process steps of Group II.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim
